

Solution Architecture

Date	1 July 2026
Team ID	xxxxxx
Project Name	Rising Waters: A Machine Learning Approach to Flood Prediction
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Displays flood prediction dashboard and reports	Flask, HTML, CSS
API Gateway	Handles communication between frontend and backend	REST API, Flask
Core Services	Processes data and runs machine learning prediction model	Python, Scikit-learn
Database	Stores historical flood, rainfall and weather data	CSV Dataset, SQLite/MySQL
