

Data Flow Diagram

Date	1 July 2026
Team ID	Rising Waters: A Machine Learning Approach to Flood Prediction
Project Name	xxxxxxx
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	User, Weather API, Government Disaster Authority sending or receiving data
Rectangle with numbered header	Process	Data collection, Flood prediction processing, Alert generation
Rectangle (solid fill, no number)	Data Store	Historical rainfall data, Sensor data, Prediction database
Labeled arrow	Data Flow	Movement of rainfall, weather, and prediction data between modules.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
